

BE THE CHANGE

USING THE INTERNET TO SPREAD THE WORD

Obviously, you love animals, and you know how to use the computer because you got this far! Now, with your parents' permission, you can use the Internet to help make the world a better place for animals and humans to live together!

YOUR VOICE CAN MAKE A WORLD OF CHANGE!

Write a silly song or poem about protecting animals. If you're lucky, it'll go viral, and the whole world will be singing your song!

VOLUNTEER, INSPIRE!

With your parent, visit your local shelter and ask how you can help. Offer to post pictures of the animals awaiting adoption.

ACT UP, BE LOUD & PROACTIVE!

Write a blog about animals, write a magazine article.... Whatever you do, just keep doing it! You can be a voice for these wonderful animals, and you can lovingly teach the truth to other people, and spread the word. You have the power to make a difference.
