

Silly Spinner

Use this Silly Spinner to have a great time with your friends! Just gather together in a circle and pass the Spinner around, letting each person have a turn spinning the pointer and acting out whatever silly thing it lands on!

Things you need: White 8 1/2" x 11" paper, Scissors, 1 fastening brad

Instructions

1. Print the Silly Spinner on white paper, preferably using colored ink. Have a parent cut out the Spinner and Pointer using the green dotted line as a guide, and glue them on a paper plate or a thick sheet of paper.
2. Cut the Spinner and Pointer from the paper plate or thick paper using the solid purple line as a guide. Line up the flower on the Pointer with the flower on the Spinner.
3. Push the fastening brad through the middle of the flowers and secure it by pressing the two arms flat against the back of the paper. Spin the pointer and act out whatever it says on the leaf section it lands on. Have fun and be safe!

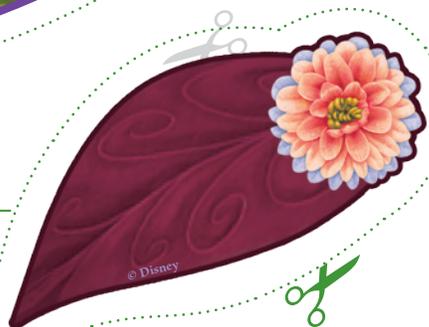

Silly Spinner
