

Disney PLANES FIRE & RESCUE

PROPELLER CRAFT

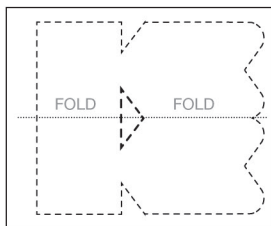

YOU WILL NEED:

Thick paper, Printer, Pencil, Tape, Non-toxic glue, Scissors.

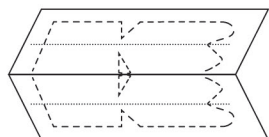

DIRECTIONS: 1) Print out this page on thick paper and fold in half along the center yellow dotted line. Secure with glue and let dry. 2) Have an adult help you cut out the propeller image on the outside edge along the black dashed lines. 3) Fold along the remaining yellow dotted lines. Make sure the propeller folds are at 90 degree

angles in opposite directions. 4) Slide the pointy end of a pencil into the bottom of the propeller into the fold and secure with tape. 5) Spin the propeller into the air by rolling the pencil between your two palms, let go, then watch it fly!
