

# BASE-KAT BALL

- Players Needed: 2 to 6
- Equipment: Basketball

## Directions

- Base-kat ball is a really cool game with a little mix of baseball and basketball. Lay-ups count as a single. Any shot made within three feet of the foul line is a double. If you make a basket on the foul line it's a triple, and if you score beyond the foul line it is a homerun. You score points by bringing your runners home, but if you miss three shots you're out! Then the other team gets a turn.

Safety Tip: Always get your parents help or permission before attempting this move (you never know, they might want to join you!).
