

# Disney the Cheetah Girls Pop Star Sensations

## Helpful Tips

Get ready for a musical adventure with The Cheetah Girls! You'll compose music, design outfits and practice singing and dancing as you get ready to take the music world by storm. To get you started, here are some helpful tips on the five fabulous mini-games you'll get to play!

★ When you start each new mini-game, you'll get a quick tutorial on how the game works. If you ever need to skip these instructions, simply tap the **Touch Screen**.

★ In *Crazy Composer*, Galleria will create a song. You will need to replicate Galleria's music note-by-note on the **Touch Screen**. Use your **stylus** on the Music Sheet to place notes onto their proper position on the scale. Your score is tallied depending on how well you replicate Galleria's song.

★ *Sing it Sista*, gives you the chance to use the microphone to sing along with the notes displayed on-screen. You can also press the **B Button** or tap the on-screen microphone. Make sure and match the timing and duration of each note to get a high score. In Arcade mode, you'll have the chance to try the songs again to get a higher score!

★ Play *Dancing Diva* by tracing the choreographed dance moves Dorinda creates. Following the countdown, place your **stylus** on the starting point of the shape. Trace the shape as well as you can by keeping your **stylus** on the **Touch Screen**. Once

you've made it to the ending point of the shape, lift your **stylus**. Your score is tallied depending on how well you traced the shapes within the time limit.

★ In *Fur-ocious Fashions* you will have to match the outfit displayed on the upper screen. First you'll see an outfit with different articles of clothing and accessories. Concentrate on the outfit and try to memorize each of the items. Then use your **stylus** on the **Touch Screen** to try and replicate the outfit.

★ *Play Purr-fect Party Performance* by tapping in time to the beats of The Cheetah Girls songs! Wait for the countdown, and then use your **stylus** to tap the right spots on the **Touch Screen** in time with the song. Beats are shown as numbers inside circles. The Beat Indicator will shrink around the beat, then tap the **Touch Screen** in rhythm to play along with The Cheetah Girls. Hit multiple correct beats in a row to get a score multiplier and really rack up the points! Stay in sync as the song continues and the performance will really go crazy. The closer the beat is to the border of the indicator the more points you score!
