

ABC Printables

Step 1:

Place the right circle on the letter "A" page over the left circle on letter "B". Push a brad clip through the circles and secure in back to link the two pages together. Repeat through "Z" to link all the pages together. (Brad clips are available at Joann's or Michaels.)

Step 2:

Pull string, yarn, or fishing line through the left circle on the "A" page. Do the same for the right circle on the "Z" page.

Step 3:

Hang in your child's room or playroom.

Other activities for letters

- Print your child's letter ("E" for "Emily") and affix it to her bedroom door.
- Tape a photo of something related to each letter to the back of its page (example: a photo of you for "M" as in "mother") to help create an association between letter and object.
