

Holiday Streamers

- Step 1:** Print out and fold paper along the solid line so that circles are facing each other. With scissors, cut along the circles' solid lines.
- Step 2:** Cut string, yarn, or fishing line (vary the lengths if you like) to form your streamers.
- Step 3:** Put the string, yarn, or fishing line between the matching circles. Attach the circles with glue or double-stick tape with the string sandwiched in between. Print out multiple copies of the streamers to make a longer garland!
