WHAT DOES DISNEY KNOW ABOUT COMPUTER SCIENCE AND INFORMATION TECHNOLOGY?

—The Indiana Jones™ Adventure Attraction at *Disneyland*® Resort has Enhanced Motion Vehicles which allow Guests to experience a random, multiple-programmed show while moving through a physical space. Each of 16 modified troop transport vehicles has its own on-board ride control and audio system containing a myriad of programmed cues and the capability of creating nearly 160,000 possible ride combinations.

—Space Mountain at *Disneyland*® Resort is the world's first indoor computerized rollercoaster.

—"The Hub", Disney's online company portal, connects more than 80,000 Cast Members worldwide and provides convenient access to accurate, timely, and relevant information.

—Disney's PC LAN support center troubleshoots computer issues and sets up service for thousands of Cast Members.

—*Walt Disney World*® Guests use Pal Mickey, a plush toy that offers reminders about parades and show times, shares stories and trivia, recommends attractions, plays games and tells guests where to locate Disney characters. *Walt Disney* Imagineering developed Pal Mickey using advances in wireless communication.

—A *Walt Disney World*® Cast Member developed Disney's FASTPASS service, a computerized system that gives Guests an alternative to standard "lines" at theme park attractions, earning two prestigious awards for innovation and ingenuity.

WHAT CAN THE DISNEY COLLEGE PROGRAM DO FOR ME?

While on the **COLLEGE PROGRAM**, participants have the opportunity to learn transferable skills, such as:

TIME MANAGEMENT—Understand how to identify priorities.

PARTNERSHIP—Collaborate with other Cast Members to provide a magical experience for our Guests.

**PRODUCT KNOWLEDGE**—Learn to educate our Guests about our service offerings.

COMMUNICATION—Interact with Guests and Cast Members from around the world.

PROBLEM SOLVING—Make on-the-spot decisions affecting our Guests.

CONTINUOUS IMPROVEMENT—Provide constructive feedback to enhance and improve operations.

"My Professional internship was the cornerstone for my career here at Disney. The experience allowed my peers and me to interact directly with Cast Members who make the intricate technology of our company possible."

—Adam Parish, Senior Programmer/Analyst, Automated Ticketing System

NETWORK, NETWORK, NETWORK!

One of the most valuable parts of the program is the opportunity to network with leaders who work in the Information Technology field. There are several networking forums available where participants can listen to leaders discuss their current roles and career history, and get one-on-one time with them to discuss résumés and ask questions.

WHAT'S NEXT?

Once participants have completed the **DISNEY COLLEGE PROGRAM**, they may have the opportunity to apply for one of many Disney Professional or Management internships.

THEN, THE SKY'S THE LIMIT!

There are more than 100,000 Disney employees worldwide who work in businesses such as:

- *Walt Disney World*® Information Services
- *Walt Disney World*® Computer Training
- ABC TV and Radio Networks
- *Walt Disney* Imagineering
- Touchstone Pictures
- Disney Internet Group
- ESPN, including the cable channel, magazine, and Web site

Dream it. Do it. Disney.
