The Country Bears—the greatest bear rock band in history—is getting their act together and bringing it to the El Capitan Theatre for one of the most entertaining events of the summer which includes a great new Disney family film and an amazing live in-theatre concert by the Country Bears themselves.

In this hilarious and heartwarming new film, 11-year old Beary Barrington sets out on an impossible quest to reunite the long-disbanded group. The Bears haven't spoken to each other in years, but Beary is determined to pull off the biggest rock 'n roll reunion in history. The film features appearances by real-life rock 'n roll legends Don Henley, Elton John, Queen Latifah, Bonnie Raitt and Willie Nelson, plus music by John Hiatt.
