

How to Host a Wireless Trading Party for the Enchanted Nintendo DS™ Game

Here are the simple Giselle Gamer steps to create the best Wireless Trading Party ever!

- ❖ *Giselle Gamer Tip:* Make sure to get your parent's permission to host the party and have them help you plan it, too.
- ❖ Pick a date for your Wireless Trading Party and email the special invitation from the "Send to a Friend" section.
- ❖ If Giselle Gamers live in your neighborhood or go to your school, print out the sign in the Download Section and post it to get the word out.
- ❖ Once your guests have responded and you know how many are coming, print out the party favors in color from the Download Section. It could be a nice activity for your guests to create them at the party after the wireless trading activity, or you can do them in advance.
- ❖ On the day of your party, have fun with your Giselle Gamer friends when you trade ingredients and dresses from your *Enchanted Nintendo DS™* game.
- ❖ For anyone who doesn't know how to do a trade, you can print out the simple instructions from the Download Section for the "How to do a Wireless Trade."
- ❖ Pass out the party favors and create your *Enchanted* Dioramas with some of your favorite characters from the game and cut out the *Enchanted* images for stickers. You might want to save the *Enchanted Nintendo DS™* game cheat code as a parting gift.
- ❖ Was your Wireless Trading Party a hit? You can always throw one again or ask another Giselle Gamer to host the next party!
