RAVEN'S BEAUTY TIP GRAB-AND-GO CHECKLIST

Don't Get Caught Without These Beauty Basics!

POWDER Keep a compact of oil-free powder with you at all times to keep down shine.

OIL-BLOTTING TISSUES For oily skin emergencies, these handy tissues are a girl's best friend!

FOUNDATION This makeup smoothes out your complexion and comes in liquid or cream/powder. Be sure to use a color that matches your skin tone (not too dark, light, orange, or yellow) and is oil-free. Cover with a light dusting of powder for a smooth, clear look. Some brands even provide some acne and sun protection. Check the label to find one that's best for you.

LIPSTICK This beauty tool is a must. The right color can really brighten your look. Experiment with different shades to see what suits your mood.

LIP GLOSS Clear or colored lip gloss adds an attractive shine and can be worn over lipstick or alone. Lightly outline lips with matching-color lip liner before applying gloss for a really great look.

CONCEALER This skin-toned makeup stick or cream is good for covering circles under eyes or blemishes.

BLUSHER Brush cake powder blush lightly over the apples of your cheeks to add color. Be sure not to overdo it or blush can look clownlike.

MASCARA Another beauty must, mascara lengthens lashes and really brings out your eyes. Use an eyelash curler for the best effect.

GETTING FANCY

Now that you have your basic makeup tools, you can play and have fun with different looks.

DO YOUR RESEARCH Check out the fashions in your favorite magazines (Vogue, Elle, Bazaar) for ideas on new colors and techniques.

KNOW YOUR TONE Every skin tone can wear several different shades. Visit the local cosmetics counter to check out which ones work best for you.

CHANGE YOUR LOOK Go subtle for everyday with just lipstick, concealer, and powder. For parties or evenings out, dress up your look with different colors and even add some shimmer and shine with gloss and sparkly powder. Have fun with your looks and just enjoy being you. That's the best beauty secret of all!
