

**The Final Frontier
To Mars and Beyond**

STUDENT ACTIVITY

As you watch the video program, note the accomplishments of both manned and unmanned missions for exploring space, in the space provided below.

Program Segment	Accomplishments
Blazing a Trail	
The Red Planet	
Helping the Hubble	
New Possibilities	

Using the information that you learned in the video (listed above) write the benefits and limitations for both manned and unmanned space missions in the chart below.

Manned Mission Benefits	Unmanned Mission Benefits	Manned Mission Limitations	Unmanned Mission Limitations

What additional information would you need to write a position statement about whether the United States should have an emphasis on manned or unmanned missions?
