

You can nurture nature by creating a beautiful bird feeder out of recycled plastic bottles!

# Tinker Bell's Feathered Friend Feeder

## You Will Need:

- One large plastic bottle
- One 8–12 inch stick
- Scissors
- A nail
- Twine, thin rope or wire

## Instructions:

*Have an adult help you when using scissors, pins or any sharp metal objects.*

- 1- Cut two small "X" shaped openings on both sides of your bottle.
- 2- Push your stick through one opening and out the other for perches.
- 3- Cut out two small feeding holes about 2 inches above each perch.
- 4- Punch a hole at one end of your bottle using your nail.
- 5- Thread your string through the hole and tie off for hanging.
- 6- Fill the bottle with bird seed or finely chopped nuts.
- 7- Find a bird-friendly place to hang your feeding station.
- 8- See how many birds come to visit!

## Decorating Time:

Now that you've made your bird feeder it's time to decorate Pixie Hollow style! You can use paint, glue, leaves and moss to make your bird feeder look like it came right out of Pixie Hollow! Don't forget to add some pixie dust!
