

Rosetta's Flower Frame

Finished Frame

Things included with kit:

2 Flower stencils
Rosetta portrait
Paper template

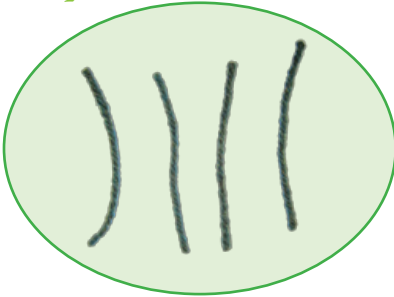

Things you need:

Ruler
6 Sticks or twigs at least 7-inch in length (approximately 1/4-inch diameter)
4 Sticks at least 8-inch in length (approximately 1/4-inch diameter)
Yarn or twine
Scissors
4 Rubber bands or tape

Rosetta's Flower Frame

Instructions for Making the Frame

Step 1

Cut 4 pieces of 5-inch long string.

Step 2

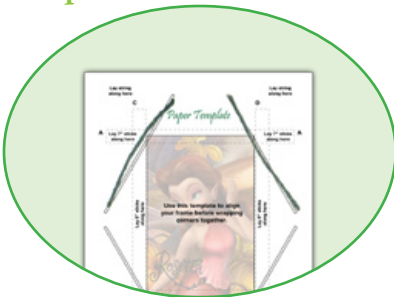

Divide the sticks into matching pairs. You should have 3 pairs of 7-inch sticks and 2 pairs of 8-inch sticks.

Step 3

Put a rubber band or tape around each pair, but leave one of the 7-inch pairs unbound.

Step 4

Align the 4 pieces of string on the paper template.

Step 5

Lay one of the bound pairs of 7-inch sticks on the paper template where the "A" markings appear.

Step 6

Lay the other bound pair of 7-inch sticks on the paper template where the "B" markings appear.

Step 7

Lay one of the bound pairs of 8-inch sticks on top of the 7-inch sticks aligned with the "C" markings on the paper template.

Step 8

Lay the other bound pair of 8-inch sticks on top of the 7-inch sticks aligned with the "D" markings on the paper template. These will create the vertical sticks in the frame.

Step 9

From the unbound pair of 7 inch sticks, lay one of the sticks across the 8 inch sticks aligned with where the "A" markings appear.

Rosetta's Flower Frame

Instructions for Making the Frame

Step 10

Lay the last stick across the 8-inch sticks aligned with where the “B” markings appear. These will create the horizontal sticks in the frame.

Step 11

One by one, pull each end of the strings up around the layers of 7-inch sticks in order to bind them all together.

Step 12

Using the remainder of your ball of string, bind the frame tight by wrapping around and over all corners. Don't forget to cut off the rubber bands or tape once the frame is complete.

Flowers

Use these flowers to decorate your frame, or decorate your frame with real flowers!

Rosetta's Flower Frame

You can use this portrait for your frame, or use your own photo! To place the image into the frame, slip the image between the horizontal side of the frame. You can also use tape to secure the photo.
