## Fun-in-the-Sun Visors

### Crayola Supplies

- Scissors
- Erasable Colored Pencils
- Erasable Markers
- Erasable Twistables®

### Other Supplies

- Party Express paper plates
- elastic

### Why?

You'll be made in the shade when you wear a colorful sun visor! Turn paper plates into cool, colorful hats to match your sport or clothes.

### How?

1. Make your mom happy while you protect your beautiful face. The best way to have fun in the sun is the safe way--wearing a visor or hat!
2. Use Crayola Erasable Colored Pencils to draw a half moon on a plain paper plate. Cut it out with Crayola Scissors.
3. Decorate your visor with Crayola Erasable Markers and Crayola Erasable Twistables®. To add details and highlights, simply erase sections of color and either leave white space or fill in with another color. Make several layers for even more intense colors.
4. Punch holes near both points of the moon. Thread elastic or a rubber band through each hole and knot. You're ready to play outdoors!

### When and Where Suggestions?

- "This is an easy craft to take along when I babysit. The kids leave their visors on, even inside!" Jen A., teenage babysitter.
- "We made sun visors on the first day of Vacation Bible School. The theme was Noah's Ark, so each child

made an animal visor. They wore their visors all week." Annette Z., VBS craft coordinator.

## Interesting Information

The sun is one of at least four hundred billion stars in the Milky Way Galaxy.

## Safety Guidelines

Safety guidelines recommend this art project is suitable for children age 4 years and older. Close adult supervision is required to ensure children's safety.

ATTENTION: The cutting edges of scissors are sharp and care should be taken whenever cutting or handling. Adult supervision is recommended with all children.
