

# Craft Corner

## "The Birthday Balloons" Diorama

### What You'll Need:

Little Einsteins Images  
Shoebox  
Construction Paper  
Glue and/or Tape  
Scissors  
Cotton Balls (optional)  
Markers or crayons (optional)

### Instructions:

1. Print included Little Einsteins images. With help from an adult, cut out the images and set aside for later.
2. Use construction paper to line the inside of the shoebox. Use blue paper for the sky and green for the grass. Tape or glue construction paper in place. Tape or glue the image of Seattle to blue construction paper on the inside back of the shoebox.
3. Cut string into 3 pieces. Tape 1 piece of string to the back of each Little Einstein image (Rocket, balloons, sun). Hang images in diorama by taping the other end of the string to the inside top of shoebox.
4. Add finishing decorative touches to your diorama. Suggestions: using markers, draw flowers in the grass. Or using cotton balls, create fluffy clouds in the sky.
