

Oogie Boogie Battle

Capture all four fiends and win the battle!

Game Setup

Print out two copies of the game card. The game card shows your grid (My Ghouls) and your opponent's grid (Their Ghouls).

Both players secretly write in their characters on their "My Ghouls" grid. The number of squares used for each one is shown below. So, to place Lock, write the letter "L" four times in any consecutive horizontal or vertical space.

Oogie Boogie (5 squares): OOOOO

Lock (4 squares): LLLL

Stock (3 squares): SSS

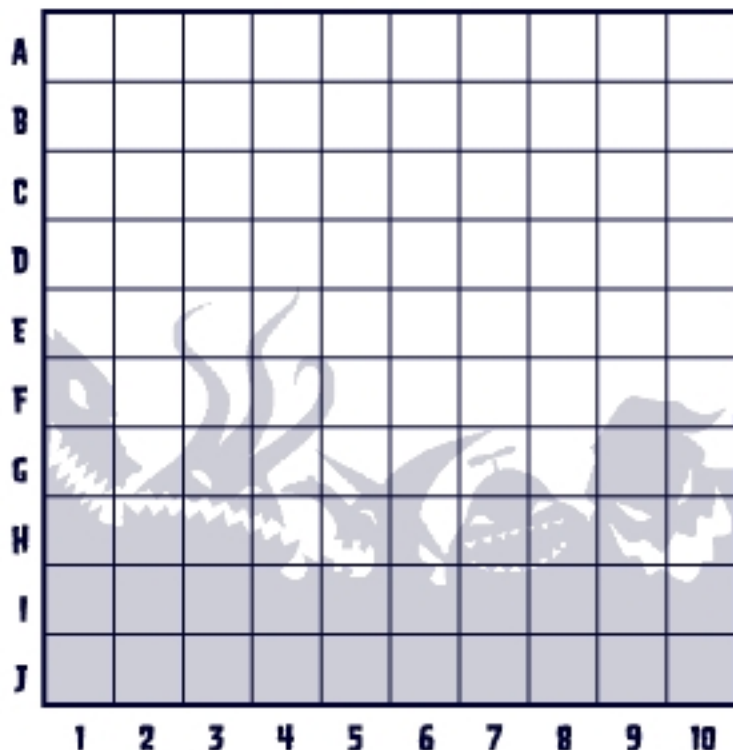

Barrel (2 squares): BB

How to Play

1. Call out the letter and number of any space on your opponent's (Their Ghouls) grid, such as "E3."
2. If your opponent has a character in that space, they call out "hit" and you mark that space in your opponent's grid with an "X." If the space is empty, that's a "miss" and a dot is placed instead.
3. When your opponent takes their turn, you call out "hit" or "miss" and mark your grid with an "X" (for a hit) or a dot (for a miss).
4. When all of your character's spaces have been hit, call out that your character has been captured.
5. The first player to capture all four characters wins the battle.

My Ghouls

Their Ghouls
