

HEY KIDS!

Disney
**AFRICAN
CATS**

IN THEATRES EARTH DAY, APRIL 22

LET'S GET SAVVY WITH THE SAVANNA!

Disney's Friends for Change encourages you to learn about protecting habitats, like the Savanna, and the positive actions you can take to help the animals that rely on them.

WHAT JOBS DO LIVING THINGS HAVE ON THE SAVANNA?

Match the clue with the picture it best describes

Clue #

Acacia Tree

Clue #

Cheetah

Clue #

Lion

Clue #

Vervet Monkey

Clue #

Dung Beetle

Clue #

Giraffe

Clues:

1. My long legs and thin body make me built for speed
2. My strong shoulders and legs make me a powerful hunter, and my roar can be heard 5 miles away.
3. My long neck is perfect for reaching the tops of trees. I trim the leaves so new ones can grow. I am sometimes food for lions.
4. My strong sense of smell and powerful legs help me find dung (poop) and roll it into a ball. I lay my eggs in the dung ball and bury it underground. I help clean up animal waste and keep the Savanna clean.
5. My roots are shallow and I don't require a lot of water. I make my own energy. My leaves, branches, flowers, and seeds are a favorite food for many animals.
6. My cheek pouches store my favorite foods for later. I especially love to eat fruit! Seeds from the fruit pass in my dung (poop) and eventually grow into new trees.

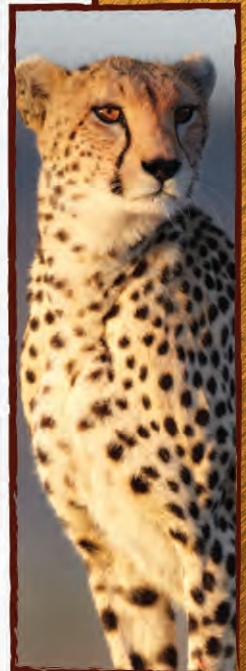

Answers: (1) Cheetah (2) Lion (3) Giraffe (4) Dung beetle (5) Acacia tree (6) Vervet monkey

The content of this curriculum was developed by the Education and Science experts of Disney's Animal Programs to inspire children and teachers to take positive action for wildlife and wild places.

Disneynature
**AFRICAN
CATS**

IN THEATRES EARTH DAY, APRIL 22

Take a look at some of the animals found in the Savanna.
Now, using what you've already learned, draw your own Savanna habitat.
Don't forget to include your favorite African Cats!

See **AFRICAN CATS** during opening week, and Disneynature will make a donation in your honor to protect lions and cheetahs and the land they call their home. To learn more, visit www.disney.com/africancats
